

Sprint Meeting Results for Sprint 2

What is your Sprint Goal?

Our sprint goal is to get location-based audio functioning on a basic level to prepare for our MVP.

Who is the Scrum Master for this Sprint?

Ayush Singh

What tasks will you complete during this Sprint?

Task	Owner	Estimated Time to Complete
Finetune Location and how users will be tracked (such as people on different sides of road)	Hitesh	200 minutes
Audio streaming, getting it into and out of the application.	Ayush	220 minutes
Signal strength + scaling volume based on distance, choosing connection method (Bluetooth vs cellular, etc.)	Evan	240 minutes
Add users to rooms together and have a way to connect people together	Kshitij	180 minutes
Integrate the audio with the location. Ideally, the two aspects integrate with very little work due to good coding practices, but you never know when you are combining.	Hitesh + Kshitij	50 minutes
